---

## CAREER OBJECTIVE

MERN Stack Developer specializing in React.js, Node.js, and Express.js. Proven experience building responsive, high-performance web applications using Tailwind CSS and component-based architecture. Proficient in REST API integration and focused on creating accessible, user-centric interfaces.

---

## SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React.js, Daisy UI, Responsive Web Design.
- **Backend:** Node.js, Express.js, MongoDB, RESTful API Integration, JSON, JWT Authentication.
- **Tools & Platforms:** Git, GitHub, VS Code, Chrome DevTools, Postman, Agile, Scrum.
- **Cloud & Deployment:** Firebase (Authentication, Hosting, Firestore), Netlify, Vercel.
- **UI/UX & Performance:** Figma (Design-to-Code), Cross-Browser Compatibility.

**Soft-Skills:** Communication and Collaboration, Critical Thinking, Personal Effectiveness and Mindset.

---

## PROJECTS

### Medical Camp Management

[Live Link](#) | [Front-End](#) | [Back-End](#)

A platform for streamlining medical camp organization and participant registration.

#### Features:

- Implemented role-based access control (Participant, Organizer) using JWT for secure dashboards.
- Designed responsive dashboards with React, Tailwind for camp tracking and user profile management.
- Optimized API response time by 20% through efficient data handling and asynchronous requests.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, Recharts.

### FOOD-SHARE

[Live link](#) | [Front-End](#) | [Back-End](#)

A community food-sharing platform to reduce local food waste.

#### Features:

- Developed Firebase Auth (Email/Google) and full CRUD operations for food listings.
- Designed a responsive, user-centric UI with Tailwind CSS and reusable React components.
- Reduced API response latency by 25% using optimized Express routes & MongoDB indexing.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS.
